

# SAFETY DATA SHEET

## L-PROLINE

### SECTION 1: Identification of the substance/mixture and of the company/undertaking Trade name:

|                                |                                                                                                                                                                          |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1.1 Product identifier:</b> |                                                                                                                                                                          |
| <b>CAS Number:</b>             | 147-85-3                                                                                                                                                                 |
| <b>EC number:</b>              | 205-702-2                                                                                                                                                                |
| <b>1.2 SYNONYMS:</b>           | <ul style="list-style-type: none"> <li>• (S)-Pyrrolidine-2-carboxylic acid</li> <li>• (S)-Proline</li> <li>• L-<math>\alpha</math>-Pyrrolidinecarboxylic acid</li> </ul> |

### SECTION 2: Hazards identification:

|                                                        |                                                                                                                               |
|--------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>2.1 Classification of the substance or mixture:</b> | Classification according to Regulation (EC) No 1272/2008 The substance is not classified according to the CLP regulation.     |
| <b>2.2 Label elements:</b>                             | Labelling according to Regulation (EC) No 1272/2008                                                                           |
| <b>Hazard Pictograms:</b>                              | None                                                                                                                          |
| <b>Signal Word:</b>                                    | None                                                                                                                          |
| <b>Hazard statements:</b>                              | None                                                                                                                          |
| <b>Precautionary Statements:</b>                       | <p><b>P405:</b> Store locked up.</p> <p><b>P501:</b> Dispose of contents/ container to an approved waste disposal plant.</p>  |
| <b>2.3 Other hazards:</b>                              |                                                                                                                               |
| <b>Inhalation:</b>                                     | may cause respiratory irritation, coughing, or shortness of breath in sensitive individuals.                                  |
| <b>Ingestion:</b>                                      | generally considered safe in small amounts, but large doses may cause gastrointestinal discomfort such as nausea or diarrhea. |
| <b>Skin Contact:</b>                                   | generally not hazardous, but may cause mild irritation in sensitive individuals or with prolonged exposure.                   |

|                                                |                                                                                                                                                  |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Eye contact:</b>                            | may cause mild irritation, redness, or discomfort.                                                                                               |
| <b>Chronic Exposure:</b>                       | not known to cause significant health effects, but prolonged or excessive intake may potentially affect kidney function or amino acid balance.   |
| <b>Aggravation of pre-existing conditions:</b> | may aggravate pre-existing conditions related to kidney disease or amino acid metabolism disorders, especially if consumed in excessive amounts. |

### SECTION 3: Composition/information on ingredients

|                                       |                                                |
|---------------------------------------|------------------------------------------------|
| <b>3.1 Chemical characterisation:</b> | Substances                                     |
| <b>CAS No:</b>                        | Description: 10039-26-6<br>LACTOSE MONOHYDRATE |
| <b>Identification number(s):</b>      | EC number: 200-559-2                           |

### SECTION 4: First aid measures

|                                              |                                                                                                                 |
|----------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>4.1 Description of first aid measures</b> |                                                                                                                 |
| <b>General information:</b>                  |                                                                                                                 |
| <b>After inhalation:</b>                     | If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. |
| <b>After skin contact:</b>                   | Remove contaminated clothing immediately. Wash with plenty of water. Consult a physician.                       |
| <b>After eye contact:</b>                    | Immediately flush eyes with plenty of water for at least 15 minutes. consult a physician.                       |
| <b>After swallowing:</b>                     | Rinse mouth with water. Immediately after ingestion. If conscious, make victim drink two                        |

|                                                                                        |                                                                                                                                                                           |
|----------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                        | glasses at most immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting. Consult a physician.                                          |
| <b>4.2 Most important symptoms and effects, both acute and delayed:</b>                | may cause mild irritation to the skin, eyes, or respiratory tract acutely, and prolonged excessive intake could potentially affect kidney function or amino acid balance. |
| <b>4.3 Indication of any immediate medical attention and special treatment needed:</b> | Treat symptomatically.                                                                                                                                                    |

## SECTION 5: Firefighting measures

|                                                                   |                                                                                                                               |
|-------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>5.1 Extinguishing media:</b>                                   | Water, Carbon dioxide, dry chemical, Alcohol-resistant foam.                                                                  |
| <b>5.2 Special hazards arising from the substance or mixture:</b> | Carbon oxides, nitrogen oxides.                                                                                               |
| <b>5.3 Advice for firefighters:</b>                               | Wear fully protective suit, safety glasses and respiratory device. Cool tanks/drums with water spray/remove them into safety. |
| <b>5.4 further information:</b>                                   | no data available                                                                                                             |

## SECTION 6: Accidental release measures

|                                                                                 |                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>6.1 Personal precautions, protective equipment and emergency procedures:</b> | Use personal protective equipment.<br>Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Avoid dust accumulation. Seek medical attention. |
|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                                                  |                                                                                                                                                                                                                                                                                                |
|------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>6.2 Environmental precautions:</b>                            | Do not enter this chemical into drains.                                                                                                                                                                                                                                                        |
| <b>6.3 Methods and material for containment and cleaning up:</b> | Take up spill into absorbent material, e.g.: sand, earth, vermiculite, powdered limestone. Scoop absorbed substance into closing containers. Spill must not return in its original container. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling. |

## SECTION 7: Handling and storage

|                                                                          |                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>7.1 Precautions for safe handling:</b>                                | For use in are with adequate ventilation.<br>Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material<br>Do not use in confined spaces.<br>Electrostatic discharge protection.<br>Minimize dust generation and accumulation. Avoid ingestion and inhalation. |
| <b>7.2 Conditions for safe storage, including any incompatibilities:</b> | Store in original containers.<br>Keep containers securely sealed<br>Store in a cool, dry, well-ventilated area. Store away from incompatible materials and foodstuff containers. Protect containers against physical damage and check regularly for leaks. Store in a dry and dark area.                                 |
| <b>Requirements to be met by storerooms and receptacles:</b>             | Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.                                                                                                                                                            |
| <b>7.3 Specific end uses:</b>                                            | no data available                                                                                                                                                                                                                                                                                                        |

## SECTION 8: Exposure controls/personal protection

|                                                                     |                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
